

### DISPLAY FEATURES

- Data measurement Large digits:  
**3 Digits:** 100 mm  
**4 Digits:** 75 mm
- Measurement unit's display
- Channels display
- Display modules:  
**Basic:** with Data Measurement Large digits only  
**Pro:** with Data Measurement Large digits & Measurement units & Channel number
- Universal input trough Serial MODBUS RS485 line
- Protection IP65
- Resolution: 0 / 0.1 / 0.01 and 0.000
- MODBUS operating mode: Master and Slave. Both RTU and ASCII modes are supported
- Easy setup and control via Setup S/W, Infrared remote control or Internal switches
- Can set connected PLC devices to their predefine setup
- Up to 99 different displayed data measurements

MD-RTU Pro

### APPLICATIONS

The MD-RTU is industrial grade, multi-channel, centralized Display. It can be used in industrial area, laboratory, data centers, control rooms, production rooms and warehouses. It operates as a centralized, large digits display to show from one up to 99 different measurements. The MD-RTU has 75 mm or 100 mm height digits visible up to 60 meters away.

MD-RTU Basic

Two available modules, Basic with just the large digits and The MD-RTU-Pro with the large digits, and also dot LED array that shows the data's units and the channel number. The Pro module is used when displaying information from multiple sources. The universal input allows connecting to MODBUS sensors and controllers from any other companies. After configuring a 3rd party controller to a specific test return it to a predefine setup for the normal operation using the remote control.

### PROGRAMMING SETUP S/W

The Programming Setup S/W is an easy to use S/W suite that is used to set the MD-RTU and via it also 3<sup>rd</sup> party devices. The Programming Setup S/W can run on Windows XP, Vista and Windows 7

**Set up manu**

Code	0	1	2	3	4	5	6	7	8	9
00	°C	°F	°K	Pa	kPa	MPa	atm	bar	mbar	mmHg
01	m/sec	m/min	km/h	rps	rpm	Hz	kHz	MHz	GHz	%
02	%RH	mg	g	kg	tn	m	cm	mm	kn	W
03	kW									

**Displayed units can be set from a predefined list**

**Displayed units can be custom design**

**The MD-RTU can set connected PLC devices to a predefined configuration**

### SPECIFICATIONS

**DISPLAY:**

Digits high	: 100 mm - 3 Digits, 75 mm - 4 Digits
Resolution	: 1 / 0.1 / 0.01 / 0.001 (4 digits)
Units	: 8 x 24 dots, 38 mm
Channels	: 2 digits, 30 mm
Data value	- 1999 to 9999
Units available	Custom made and 2 cache list of 32 units
Exposition time	1 to 63 seconds per channel

**MODBUS:**

Mode:	Master or Slave
Channels	up to 99
Protocol	ASCII or RTU

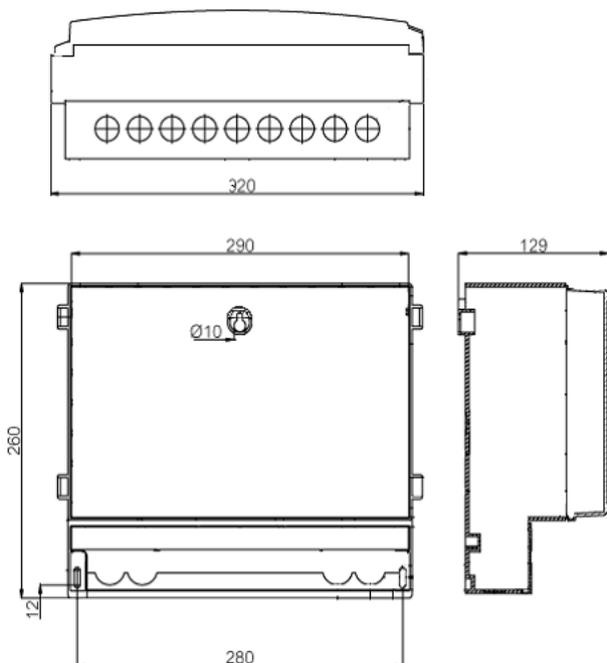

**BOX:**

Protection	: IP 65
Dimensions	: 320 x 260 x 129 see drawing

**TECHNICAL SPECIFICATION:**

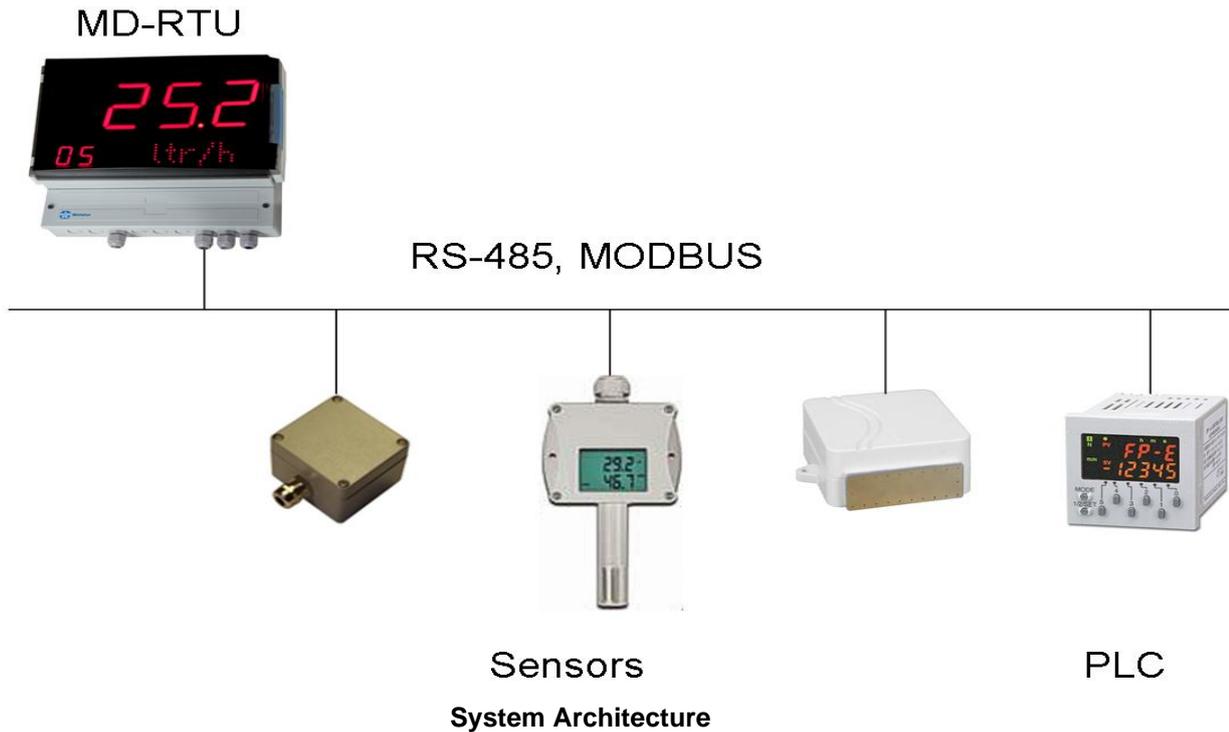

Power supply	: 24 VDC, 24, 110, 220 VAC
Communication	: Serial RS485, MODBUS, 2 parallel ports
Working temp.	0 - 50° C
Storage temp.	- 10 - 70° C

Box Dimensions:

# Industrial RTU Display Type MD-RTU

Multi-Channel, Centralized  
Large Digits Display

## HOW TO ORDER:

MD-RTU - 1 - 2 - 3 - 4

### MODEL

MD-RTU

### 1) NUMBER OF DIGITS

- 3 3 Digits
- 4 4 Digits

### 2) DISPLAY MODE

- B Basic (Large digits)
- P Pro (Large digits, Units and channel number)

### 3) POWER SUPPLY

- 1 24 VDC
- 2 24 VAC
- 3 110 VAC
- 4 230 VAC

### 4) INFRA RED REMOTE CONTROL

- X without
- R with IR controller

Ordering examples: MD-RTU-3-B-4  
MD-RTU-4-P-1-R
