

MI-8018 Infrared Thermometer

Non-Contact Infrared Thermometer MI-8018

- The most useful IR meter for surface temp. measuring.
- Measuring range: Human body mode 32.0°C~42.0°C
Object mode 0°C~180°C
- Easy, quick and hygienic solution for temperature check.
- Fast response time: 800ms.
- High accuracy +/-0.3°C and good resolution 0.1°C
- Temperature unit: Celsius, Fahrenheit
- LCD Display
- Hold and Memory functions

Designed for checking
Body/ Adult and Objects

Model	MI-8018
Temp' range	32°C~42.0°C / 0°C~180°C
Temp' resolution	0.1°C / °F
Temp' accuracy	+/- 0.3°C / +/- 2°C
Effective distance	5~15CM
LDC display	fever alarm
Memory stores	up to 32 readings
Working conditions	10~40°C / Rh<=80%
Storage Condition	-25~55°C / Rh<=90%
Auto power off function	15 seconds
Dimension	75x35x150mm
Net weight	200g
Battery	1x9V battery
Standard Package	1 set thermometer (battery included)
